

Bike/Motorcycle Holder Joyroom JR-ZS266 for Phones (Black)

Ref: 6956116767464

Bike/Motorcycle Holder Joyroom JR-ZS266 for Phones (Black)

Bike/Motorcycle Holder Joyroom JR-ZS266 for Phones (Black)

Do you often ride your bike or motorcycle? Have your phone at your fingertips and conveniently use navigation or record your trips from an original perspective! The Joyroom JR-ZS266 mount is very convenient to use and easy to install. It will provide your smartphone with the necessary stability and security, and is distinguished by its wide compatibility. It perfectly fits phones with a diagonal of 4.7-6.8".

Carefully considered design

Thanks to its thoughtful design and non-slip silicone pads, the holder stably holds your phone even on bumpy roads. Don't worry about your device falling out and being damaged! Mounting the accessory will also not cause you any problems. What's more, inserting your smartphone into the holder and removing it is very easy and convenient - you can easily do it with one hand.

Wide compatibility

The holder is compatible with phones with a screen diagonal from 4.7" to 6.8". You don't have to take your smartphone out of the case either. However, that's not the end of the possibilities. The accessory fits handlebars with a diameter of 15mm to 30mm, which means you can easily attach it not only to your bicycle, but also to a motorcycle, scooter or even a baby carriage." In addition, the mount is designed to not obstruct your smartphone's cameras, so you can record freely while driving.
