Car dashboard holder Joyroom JR-ZS350

Ref: 6956116769819

Car dashboard holder Joyroom JR-ZS350

Make it easy to use navigation and have your phone at your fingertips in the car. The Joyroom JR-ZS350 mount will give your smartphone unparalleled stability, and with its various adjustment options, you can easily customize it to suit your needs. You will successfully attach it to the dashboard with a special suction cup. The product is also equipped with a magnetic clip, which will allow you to hold the charging cable in one place and help keep your vehicle in order. The holder is compatible with smartphones with a diagonal of 4-7".

Tailored to you

The holder is equipped with a high-quality suction cup that allows you to attach it stably to your dashboard. It is also distinguished by an adjustable arm, so you can adjust its position to suit your needs. You also have the ability to rotate the smartphone placed on it in a range of 360° - you can easily position it horizontally or vertically!

Refined in every detail

Thanks to its carefully considered design, the mount can provide your smartphone with reliable stability. The device placed in it won't wobble, and you don't have to worry about it falling out - even when driving on a bumpy road or taking sharp turns. The accessory perfectly fits phones with a diagonal of 4-7" and does not require removing them from the case.
