

Magnetic air vent car holder Joyroom JR-ZS355 (black)

Magnetic air vent car holder Joyroom JR-ZS355 (black)

Ref: 6941237100016

Joyroom JR-ZS355 magnetic grille car mount (black).

The JR-ZS355 is a magnetic car mount for your phone, the advantages of which include a strong N52 magnet that will ensure that your phone is held securely to the mount. The second advantage is the holder's design, which ensures that the phone attached to it will not overheat - the contact area between the phone and the holder has been reduced by placing a hole in its design. Air flowing from the vent will thus effectively cool the device. The arm used in the holder has been shortened, providing greater stability. In addition, you can rotate the arm 360 degrees and use your phone at any angle. Phone sizes from 4-7 inches fit on the holder.

Great strength

JR-ZS355 is an innovative magnetic car mount that targets practicality. Its most important feature is the powerful N52 magnet, which guarantees a secure and safe hold on your phone. Thanks to it, you don't have to worry about your device detaching while driving, ensuring a peaceful journey.

Thoughtful design

An extremely important feature of this mount is its well-thought-out design, designed to minimize phone overheating. Thanks to the reduced contact area between the phone and the holder, heat does not build up in excess. In addition, the ventilation hole in the holder's design effectively allows air to circulate from the car ventilation, protecting your device from overheating even on long trips.

Convenience

The JR-ZS355 is also distinguished by its shortened arm, which translates into considerable stability. You can be sure that the holder will keep your phone in a fixed position, even on uneven roads. What's more, the practicality of the holder can be seen in its ability to rotate a full 360 degrees, so you can position your phone at any angle. This is not only convenient, but also an ergonomic solution that makes it easier to operate the device while driving.

Set contents

Phone holder x 1

Fan hook x 1

Metal ring x 1

Separation film x 1

Cleaning kit x 1

Alignment card x 1
