

Wireless Open-Ear Headphones Joyroom JR-OE2 (Orange)

Ref: 6956116783150

Wireless Open-Ear Headphones Joyroom JR-OE2 (Orange)

Bone conduction headphones Joyroom Openfree JR-OE2 (orange).

Bone conduction headphones use the bones of the skull as a conductor of sound waves. They propagate as vibrations and go directly to the inner ear. The headphones are not inserted into the ear canal but are placed next to the auricles, allowing the wearer to hear both music and ambient sounds - increasing safety while using the device, such as during sports. The Joyroom Openfree JR-OE2 is an ergonomically designed headphone that features extra-large 16.2mm speakers with directional sound distribution to protect your privacy. The headphones feature dual microphones with ENC noise cancellation and intuitive buttons to make your experience as comfortable as possible. What's more, the headphones come with a 600mAh case with enough energy to charge the headphones up to two full charges, and their IPX5 level water resistance ensures that they're great for running or working out at the gym.

Ergonomic design

Joyroom Openfree JR-OE2 feature a comfortable fit - designed to sit comfortably on the earcups and not compress them, these headphones, combined with their lightweight design, are very comfortable to wear so you can fully focus on your tasks. Made of silicone and ABS, the headphones are pleasant to the touch and will not irritate your skin.

Battery capacity and runtime

Both headphones are equipped with 12mAh rechargeable batteries that allow them to play music for about 10 hours and talk for 5 hours

with the volume set at 70%. The headphones can spend 120 hours in standby mode. When they need to be recharged, the headphones are inserted into the case, whose battery has a capacity of 600mAh - this is enough for two full charges of the headphones. Charging time for the headphones as well as the case is 1.5 hours, and the supported plug type is USB-C.

☐☐ No cables, no hassle

☐☐ Joyroom Openfree JR-OE2 use Bluetooth version 5.3 technology to connect to devices such as phones, laptops, etc., allowing you to forget the problem of untangling cables or accidentally tugging on it. Bluetooth gives you freedom of movement.

Waterproof

Are you an avid runner, enjoy cycling or listening to podcasts while training? Fantastic! With the Joyroom Openfree JR-OE2 headphones with IPX5 waterproof rating, you don't have to worry about sweat or light rain damaging your headphones - train stress-free and enjoy music, audiobooks and more!

Distortion-free conversations

☐☐ Dual microphones featuring ENC ambient noise cancellation and DT4.0 directional voice relay, the Joyroom Openfree JR-OE2 headphones provide great sound quality so you can talk comfortably at any time.
