

## Wireless speaker Maya Series RGB Joyroom JR-MS01 (black)

Ref: 6956116753245

Wireless speaker Maya Series RGB Joyroom JR-MS01 (black)

The Joyroom JR-MS01 Maya RGB Wireless Speaker (black)

The Joyroom wireless speaker uses a  $\varnothing 52\text{mm}$  driver and  $\varnothing 52\text{mm}$  diaphragm, perfectly balancing sound quality and performance. Thanks to Bluetooth 5.1 technology, you can enjoy a reliable and seamless wireless connection over a distance of up to 12 meters. The device also offers striking RGB lighting to add colorful accents to any interior, creating a unique atmosphere. Moreover, the original design in the form of a disco ball attracts attention and enriches the aesthetics of the room. The low weight and compact design makes it easy for eventual transportation.

**Delightful sound**

Enjoy precise sound thanks to its wide frequency range (60 Hz to 12 kHz). Combined with a  $\varnothing 52\text{ mm}$  loudspeaker and a diaphragm of the same dimensions, the Joyroom unit ensures that every note and musical detail is rendered in the best possible way. From now on, you can delight in deep bass and clear, dynamic treble.

**Stable connection**

Forget about interference. The Joyroom speaker supports Bluetooth 5.1 technology, providing a reliable connection over a distance of up to 12 meters. It also uses an advanced AC6965E chip to guarantee a smooth connection. Nothing will prevent you from listening to the songs of your favorite artists anymore!

### Lighting effects

Immerse yourself in a dynamic visual experience with colorful RGB backlighting. The Joyroom speaker offers multiple light modes and colors that harmonize with the music to create a unique visual match. Regardless of your mood or music genre, you can adjust the lighting to create an atmosphere that perfectly fits the moment.

### Innovative design

Bring magic to any meeting with the Joyroom speaker, which features an innovative design that resembles a disco ball. You can be sure that the device will attract attention and bring a unique character to parties and gatherings with friends. In addition, its weight does not exceed 475.5 g, so you can take it anywhere without any trouble.

### Attention to detail

The body of the speaker is covered with mesh, which provides an aesthetic appearance and practical advantages. This finish makes the device resistant to dust and dirt. In addition, the mesh acts as a barrier that absorbs and minimizes any sound interference, ensuring pristine sound. Also noteworthy is the non-slip underside, which minimizes additional noise caused by powerful bass. So you can enjoy clear sound without the effects of secondary noise.

### Long runtime

The Joyroom speaker is equipped with a powerful 2000 mAh battery, which provides about 3-4 hours of music playback (with the lights off and at 70% volume). In standby mode, the device lasts about 48 hours (with the lights off). The time it takes to renew its energy is about 3 hours.

### □Manufacturer

□Joyroom

### □Model

□JR-MS01

### □Bluetooth version

□5.1

### □Bluetooth chip

□AC6965E

### □Audio decoding

□SBC
