

Docking Station Orico 1-Bay SSD/HDD 2.5 / 3.5" SATA III

Ref: 6936761869263

Docking Station Orico 1-Bay SSD/HDD 2.5 / 3.5" SATA III

Orico Docking Station for 2.5/3.5" HDD/SSD

This universal docking station by Orico is compatible with most 2.5/3.5" HDDs and SSDs. The USB 3.0 interface provides data transfer speeds of up to 5Gbps. The product is easy to use and install. It works perfectly with most computers and operating systems. It is also extremely efficient, durable and resistant to damage.

Fast data transfer

The Orico docking station will allow you to greatly streamline the process of transferring files between your hard drive and computer. The Orico USB 3.0 interface supports data transfer speeds of up to 5Gbps and is backward compatible with USB 2.0 and 1.1. With its help you will send all the photos, videos or documents you need in no time.

Wide compatibility and easy installation

Mounting the hard drive in the docking station is extremely fast and easy. No additional tools are required. You also do not have to worry about compatibility problems. The product will perfectly support both SSD and HDD 2,5" and 3,5". It works with computers and laptops running Windows, Linux or Mac. In addition, thanks to the plug&play system you can avoid the need to install additional drivers.

Thoughtful design

The simple, minimalist design makes this device a perfect addition to any desk. Thanks to its compact size, it will not take up too much space. The Orico docking station is made of durable materials and has excellent heat dissipation. The built-in LED will let you know about its status.
