Smart Wi-Fi LED Bulb Meross MSL100HK-EU

Ref: 0680306682980

Smart Wi-Fi LED Bulb Meross MSL100HK-EU

Meross MSL100HK-EU Wi-Fi smart LED bulb
The Meross MSL100HK-EU smart light bulb will delight any lover of vintage style. It provides warm and eye-pleasing lighting, creating a unique ambience in any room. Thanks to compatibility with popular voice assistants and a dedicated app, its operation is even more convenient. It also saves up to 90% energy compared to standard incandescent bulbs.

Unique ambience
The bulb provides a brightness of 800 lm, making it an ideal light source for many applications. Its colour temperature is 2700 K, which means that it emits a warm, pleasant light with a tonality similar to sunlight during sunset. The unique shape, which is reminiscent of incandescent bulbs of yesteryear, not only adds a unique charm to interiors, but also makes your rooms cosier.

Full control in your hands
No matter where you are, you now have complete control over your lighting. All you have to do is download the dedicated Meross app to your smartphone to freely control your lighting. Among other things, the Meross app allows you to adjust the brightness and create lighting schedules. What's more, the bulb also works with Apple HomeKit, Samsung SmartThings, Amazon Alexa, Google Assistant and Line Clova.

Voice control for greater convenience
No longer do you have to get up from the comfort of your couch to turn off the lights. Thanks to integration with popular voice assistants such as Amazon Alexa, Siri and Google Assistant, you can conveniently manage your lighting with simple voice commands. With just a few words, create the perfect atmosphere in any room.

Save up to 90% energy
The Meross light bulb is also an economical solution for your home. It consumes extremely little electricity and will help you save up to 90% of energy compared to traditional light bulbs. It works with your existing Wi-Fi network, so you don't need any additional hub.
