

## Universal Fence Holder Mount Telesin TE-FM-001

Universal Fence Holder Mount Telesin TE-FM-001

Ref: 6974944460562

### TELESIN Universal Fence Mount TE-FM-001

Do you want to capture unforgettable sports moments? However, do you need your hands to be free? The TELESIN universal fence mount comes to the rescue! You can easily mount it on various types of nets, but not only. It allows you to freely adjust it up, down, right and left, so you can adapt it to your needs. What's more, thanks to the included accessories, the mount will fit a wide range of devices - from various types of cameras to phones. Capture unforgettable moments with TELESIN!

### Convenient mounting

The TELESIN mount is designed for convenient mounting. Its sliding rail can be easily adjusted about 50mm up and down and 60mm left and right. This makes you position your camera very precisely. You also have the option of mounting the mount on both sides of the grid, which will make it easier to take perfect game shots. What's more, the gadget's flexible arms allow you to place it on various types of nets - from those on a tennis court to those on a soccer field. In addition, you can also hang the holder from a railing, a tree or a chair, thus creating amazing shots.

### Przemysł design

What sets the TELESIN mount apart is its well-thought-out design. The main frame is made of aluminum alloy, which makes it suitable for different kinds of environments, and what's more, it demonstrates waterproofness and durability - from today you can use it without

worry! What's more, the four flexible arms made of aluminum strip and stainless steel tubing will be durable and not easily broken by repeated bending. Thus, you get a guarantee that the handle will serve you for a long time.

#### Additional accessories

Additional accessories have been included to make the use of the handle more comfortable. Among other things, in the box you will find a leather pouch, into which you can hide, for example, a powerbank and thus conveniently charge your camera, placed on the fence. An additional adapter and clip will make it possible for you to use TELESIN equally for cameras, panoramic cameras or phones. This makes the mount very versatile and practical.
