

Cable Joyroom SA32-AC6 Starry USB to USB-C, 100W, 1m black

Ref: 6956116759629

Cable Joyroom SA32-AC6 Starry USB to USB-C, 100W, 1m black

Joyroom SA32-AC6 Starry USB to USB-C cable, 100W, 1m (black)

Looking for a reliable cable that will provide instant and efficient charging for your devices? The Joyroom SA32 cable is sure to meet your expectations! Its charging power of 100W means that you can charge even the most demanding devices at an express pace. You'll also successfully use it for data transfer, and its speed of 480 Mbps will enable smooth and fast file transfers. The gentle blue illumination of the connector will make it easier for you to connect your device after charging in the dark.

Fast charging technology

Forget about the long wait for your devices to fully charge! The Joyroom Starry cable supports fast charging with up to 100 watts of power. This means you'll charge your chosen devices to full in as little as 30 minutes! What's more, the smart chip automatically adjusts the charging parameters to the connected device to prevent damage.

Highly durable

The Joyroom cable is designed for durability and long-lasting use. Its nylon fence provides excellent protection against damage, bending or tangling of the cable. Thanks to its reinforced connectors, you can rest assured that the cable is ready to meet all the challenges of daily use.
