

## Earbuds TWS Joyroom Jdots Series JR-DB2 (white)

Earbuds TWS Joyroom Jdots Series JR-DB2 (white)

Ref: 6941237112040

### TWS Joyroom Jdots Series JR-DB2 Headphones (white)

Listen to your favorite tunes in a new way. The headphones offer 6-millimeter drivers so you can hear previously elusive details. What's more, Bluetooth 5.3 ensures a reliable connection, and wide compatibility allows you to connect the headphones to all sorts of devices. In turn, long-lasting batteries guarantee up to 42 hours of use, and built-in microphones allow you to talk freely on the phone.

### High quality sound

Immerse yourself in the music. Joyroom headphones use 6mm drivers and a PU composite diaphragm, which translates into a wide frequency range. So you can enjoy a richly detailed and bass-rich sound. Rediscover your favorite tunes with the Jdots Series.

### Conveniently talk on the phone

Train station, shopping mall, bus stop - make phone calls comfortably no matter where you are. Jdots Series headphones are equipped with noise-canceling microphones, so you can be sure your caller can hear you.

### Reliable Bluetooth connection

The headphones connect to your device via Bluetooth 5.3, which translates into a fast, stable connection without interference and lower power consumption. What's more, the Jdots Series are compatible with systems such as Android, iOS and Windows. You can successfully

connect them to your smartphone, tablet or laptop. In addition, the low latency (65 ms) improves audio and video synchronization while watching movies and playing games.

#### Lightweight and comfortable

Listen to your favorite podcasts for long periods of time and don't worry about feeling tired. The headphones feature a lightweight and ergonomic design, so you can use them comfortably. What's more, they don't fall out of your ears, providing even more comfort.

#### Long working time

Don't worry about suddenly discharged headphones. Jdots Series play music on a single charge for about 7 h, and the charging case provides another 35 h of use. In addition, 10 min of charging allows you to use the JR-DB2 for 1 h, and they take only 1.5 h to fully charge. In addition, a digital display will let you know the battery level of each headphone.
