Receiver Joyroom JR-CB6 Car-B (dark gray)

The Joyroom JR-CB6 receiver allows you to add Bluetooth functionality to your car radio, home stereo system, or selected speakers. The device supports Bluetooth 5.3 and ensures excellent sound quality. It also enables convenient phone conversations, as it is equipped with a high-quality microphone with noise reduction (ENC) function. The receiver is very handy and compact, and with its plug-and-play system, it's easy to use.

Perfect for Every Situation

Thanks to Bluetooth 5.3 technology, the receiver provides stable, low-latency transmission with a range of up to 10 meters. You can enjoy music or use navigation without any obstacles. The product is also perfect for phone calls, with a specially designed microphone and ENC function that ensure high-quality sound. With Joyroom, you can be sure that your conversation partners will hear you clearly! You can also pair the receiver with two devices simultaneously and switch between them effortlessly.

Well-Thought-Out Design

The receiver is equipped with a large button that allows for convenient handling of incoming phone calls. With a single click, you can answer the phone! The device also stands out with its portable, compact construction that won't take up too much space. Its durable TPE cable, which is easy to store thanks to the included strap, is an additional advantage. Moreover, the receiver supports plug-and-play,

meaning you only need to connect it to your car radio or speaker. No need to worry about complicated configurations!
