Wi-Fi Smart In-Wall Switch Meross MSS810HK-UN
Wi-Fi Smart In-Wall Switch Meross MSS810HK-UN

Ref: 6973696564948

Meross MSS810HK-UN smart Wi-Fi wall switch
The Meross MSS810HK-UN smart wall switch is the perfect way to bring modern technology into your everyday life. A dedicated app will give you full control over your lighting, and compatibility with popular voice assistants will make operation even more convenient. You can also program operating schedules or set a timer. Simply connect it to your existing Wi-Fi network to freely control your lighting or ceiling fan from a distance. Note: a blue-colored neutral wire is required to install the switch.

Adjust your lighting to the rhythm of the day
With Meross MSS810HK-UN, you can easily adjust the lighting in your home to suit your day. Set the lighting so that the light gets up with you in the morning, and then automatically turn it off when you leave the house. All of this is now possible, and all you have to do is set up the appropriate operating schedules and timers in the app.

Manage your lights from anywhere
Controlling your lights has never been so easy and convenient! With the dedicated Meross app, you can remotely control the lights in your home from anywhere in the world - just a few clicks away! Whether you're at work, on vacation, or just lounging on the couch, you now have full control over the lighting in any room. What's more, the switch is also compatible with Apple HomeKit, which means you can integrate your lighting with the Apple ecosystem and take advantage of advanced automation features.

Discover a new dimension of control
The switch is compatible with the most popular voice assistants, including Siri, Amazon Alexa, Google Assistant and SmartThings. With simple voice commands, you can now control your home's lighting without having to reach for your phone or get out of bed. Coming home with your hands full of groceries? Just ask the voice assistant to turn on the lights in the hallway - no more worrying about searching for the switch in the dark!

Quick and easy installation
Discover the future of lighting control with the Meross MSS810HK-UN! The switch works with your existing Wi-Fi network, which means you don't need any additional hubs or complicated installations. Just mount the switch, connect it to your Wi-Fi network, configure it in the dedicated app and you're done! What's more, it's compatible with different types of single-pole switches, which means you can easily integrate it into your home's existing electrical infrastructure.
