

## Filter ND16 Freewell to DJI Osmo Pocket 3

Filter ND16 Freewell to DJI Osmo Pocket 3

Ref: 6972971864957

Filter ND16 Freewell to DJI Osmo Pocket 3

Protect your camera lens and increase the quality of your shots with the Freewell proposal. The ND16 filter provides protection against scratches, water and dust and effectively reduces the amount of light coming through the lens. The product is made from high grade optical glass and aluminium alloy. It is distinguished by its light weight - you don't have to worry about stressing your device.

### Effective performance

The ND16 Freewell filter provides effective glare reduction to help you capture shots with realistic colour and excellent contrast with ease. The product also helps you control your camera's exposure settings when shooting photos or footage outdoors.

### Top quality workmanship

High quality German optical glass has been used in the manufacture of the filters. These are characterised by colour neutrality and exceptional scratch resistance. The filters have also been treated with a special coating that provides effective protection against water, dust and oil. So you can be sure that the filters will remain intact, no matter what conditions you are working in.
