

## Wi-Fi, ZigBee Sonoff iHost Smart Home Hub AIBridge, 2GB RAM

Ref: 6920075778168

Wi-Fi, ZigBee Sonoff iHost Smart Home Hub AIBridge, 2GB RAM

Wi-Fi Central, ZigBee Sonoff iHost Smart Home Hub AIBridge, 2GB RAM

The Sonoff iHost Smart Home Hub AIBridge is an innovative local server that transforms your home into a smart space. With compatibility for both Wi-Fi and ZigBee protocols, local data storage, an open API interface, and the ability to manage up to 128 devices, it's the perfect solution for a modern home. This advanced product offers privacy and data security, providing reliable control and customization of home automation.

### Wi-Fi and ZigBee

The iHost Smart Home Hub central unit offers versatile compatibility with both Wi-Fi and ZigBee standard devices. This allows you to easily integrate and manage various smart home devices, regardless of their communication protocol. The extensive ZigBee network, working in conjunction with ZigBee-compatible routers, ensures stable and extensive coverage throughout your home.

### Local Data Storage

Your data security is a top priority for the iHost Smart Home Hub. All information, including scene logs, operations, and security data, is stored locally. This means you have full control over your data, which remains private and protected from external access.

### Open API Interface and Integration

The iHost central unit offers an open API interface and supports Docker containerization. This functionality allows for advanced customization by installing or creating add-ons that simplify daily use and enhance the functionality of your smart home.

#### eWeLink CAST Configuration and Customization

The iHost Smart Home Hub enables the configuration of the central eWeLink CAST console, providing the ability to create personalized dashboards. You can customize widgets and create custom panels for quick and convenient access to manage all your smart home devices.

#### Support for Add-ons and Text-To-Speech

Additionally, the iHost Smart Home Hub supports add-ons, including Text-To-Speech features, which enhance interaction capabilities with the device. You can easily issue voice commands and receive voice notifications, making home management even simpler and more intuitive.

#### Key Features

Everything you need to get started quickly is included in the package: Wi-Fi central unit, RJ45 and USB-C cables, a reset key, and guides. The device, made of durable ABS material, has an elegant white color that fits in any interior. With compact dimensions of 135 x 120 x 41mm, you can easily find a place for it in your home.

#### Specifications

Wi-Fi Central x 1
