

## Computer case Darkflash DK150 with 3 fans (white)

Computer case Darkflash DK150 with 3 fans (white)

# Ref: 4710343793892

### Darkflash DK150 computer chassis

The Darkflash DK150 computer case can support up to 4 hard drives and up to 7 fans. It is equipped with two USB 2.0 and one USB 3.0 ports, which are located at the top of the case together with the power button and the audio ports also. The mesh front panel gives it a modern look and ensures an efficient heat dissipation, while the tempered glass side allows you to take a look inside the computer. The product also offers 7 additional expansion slots. The set includes the case and 3 fans.

#### Thoughtful design

The case design has been refined down to the last detail. In its front part, there is a stylish mesh that not only looks really modern, but also provides better heat dissipation. The side panel of the product is made of tempered glass and is very easy to install thanks to wing screws. This allows you to install the individual parts conveniently and provides an overview of the computer's interior.

#### Built-in ports and buttons

Build Your Dream Computer. The case supports up to 160mm CPU and 290mm GPU. You can easily install 2 HDD and 2 SSD or 1 HDD and 3 SSD. The space for the PSU is located at the bottom of the case. The case supports ATX, M-ATX and ITX motherboards. It is also equipped with 7 expansion slots for mounting additional components.

Mobilemax - Gadgets and Accessories Rua Vasco da Gama n61, 8005-411, Estoi - Faro, Portugal (Continente) Telefone: +351962484153 (Chamada para rede móvel nacional) Email: info@mobilemax.pt

#### Freely assemble selected elements

Mount your dream computer. The case supports a CPU up to 160mm and a GPU up to 290mm. You can successfully install 2 HDD and 2 SSD or 1 HDD and 3 SSD. The space for the PSU is located at the bottom of the case. The case supports ATX, M-ATX and ITX motherboards. It is also equipped with 7 expansion slots that allow you to mount additional components. Each of them can be used only once.

#### Effective cooling

Take care of the optimal cooling of your PC. You can install one 120mm fan at the back of the case, 2 120mm fans at the top, and 3 120mm fans or a radiator up to 360mm at the front. To help you assemble your PC and create an effective cooling system, 3 fans are included.
