IMOU N300 Wi-Fi Router

Ref: 6971927236626

IMOU N300 Wi-Fi Router

The IMOU N300 Wi-Fi Router provides wireless speeds of up to 300Mbps. It also supports 2 operation modes and allows you to create a personalized internet usage schedule. The device is easy to set up and compatible with IPv6 protocol, ensuring readiness for future internet standards. It offers advanced security features, including WPS encryption and WISP mode.

Reliable Internet Access

The N300 model uses the IEEE 802.11b/g/n standard, providing impressive wireless speeds of up to 300Mbps. It is an ideal solution for demanding home applications, such as high-definition streaming and online gaming.

Easy Installation

Installing the IMOU N300 router takes just a few minutes. The configuration process is quick and intuitive, allowing you to set up a secure wireless network without the need for advanced technical knowledge.

WPS Security

Wi-Fi Protected Setup™ (WPS) feature enables easy and secure device connection to the network. Simply press the dedicated WPS button to quickly connect to the network without entering complex passwords.

IPv6 Compatibility

With compatibility for the latest internet protocol, IPv6, the router is prepared for future standards and allows you to access modern services offered by internet providers.

Schedule Planning

With the IMOU N300 Wi-Fi router, you can set up a schedule for device operation, automatically turning it on and off at specified times. This solution helps minimize electricity bills and allows you to monitor the time your children spend on the internet.

2 Operation Modes

You have access to 2 operation modes. In the first mode, the router offers standard features, creating a Wi-Fi network to connect various home devices. In the second mode, known as the client mode, it can wirelessly connect to internet service provider (ISP) networks or access points (AP), allowing you to share internet access. This dual-mode functionality provides greater flexibility in network configuration and extends the device's usage possibilities.
