

Smart WiFi Smart Power Strip Meross MSS425FHK(EU) (HomeKit)

Ref: 0680306682775

Smart WiFi Smart Power Strip Meross MSS425FHK(EU) (HomeKit)

Intelligent WiFi power strip Meross MSS425F (HomeKit).

Smart home management just got even easier. The Meross WiFi power strip is equipped with 4 outlets and 4 USB ports, which you can operate remotely via an app. It is also possible to create schedules, set timers and control by voice. The product is compatible with Apple HomeKit, Google Assistant, Amazon Alexa and Samsung SmartThings.

Many possibilities - many applications

The Meross smart power strip will be perfect not only at home, but also in the office, for example. The 4 outlets give you plenty of options for connecting different appliances and controlling them independently, and the USB ports, which also allow smart charging with up to 4 A, can be operated in groups.

Control your devices wherever you are

Enjoy convenient remote control of your smart devices. The Meross app allows you to turn them on and off from anywhere - including away from home. You can also create work schedules and timers for them. The strip works with Apple HomeKit, Amazon Alexa, Google Assistant and Samsung SmartThings. So it's possible to integrate it into the system you're using, and even control it with your voice.

For the sake of safety

The Meross smart strip ensures total safety of use. Made of fireproof plastic, the housing protects the inside of the device. The product is also equipped with overload protection, so you don't have to worry about possible damage to the equipment connected to it.

Carefully thought-out design

The product was created with attention to every detail. The cable is 1.8 meters long and extremely durable, and the damage-resistant cord ensures fast, reliable operation. The power strip has a single, convenient to use button, with which you can turn on or off all outlets and ports simultaneously. Their independent control is enabled by the selected application. All this greatly improves the operation of the device.

Works with a wide variety of devices

The WiFi strip is characterized by wide compatibility. You will successfully connect to it, for example, a lamp, a fan, a humidifier, a portable heater or any other small electrical device that is compatible with its specifications. Get new and more interesting possibilities and create the smart home you dream of!

Manufacturer.

Meross

Input
