Ref: 680306682706

Smart Wi-Fi Light Strip MSL320 Meross (HomeKit)

Meross MSL320 WiFi Smart LED Strip (HomeKit)
Get yourself an original decoration of the rooms in your house and ensure a unique mood for every occasion. How to do it? Use Meross MSL320 LED light strip! Freely adjust the light to your needs, changing its brightness or color. You can also control the lighting remotely - using the Meross app or platforms such as Apple HomeKit or Google Assistant. The product also supports voice control.

Get the right atmosphere in any situation
Did you know that the right lighting can influence our mood in a specific way? With its help you can also create a unique atmosphere for any occasion. LED light strip MSL320 will let you see how it works! You can freely adjust the brightness of the light it generates and even change its color - from a wide range of RGB colors you will surely choose something perfect for you.

Fantastic lighting effects
This is not the end of your possibilities! The LED strip supports scenes with a variety of lighting effects that will allow you to tailor your lighting to the situation even better. Planning a quiet evening with your favorite book or a home movie night? Organizing a party? Need a moment to focus while you work? Or just getting ready for bed? Choose the right scene and enjoy the light perfectly suited to your needs.

Control your lighting from anywhere
Now you can control the lighting even when you are away from home. The LED strip works with the Meross app, as well as Apple HomeKit, Amazon Alexa, Google Assistant, Samsung SmartThings and IFTTT. To turn the light on, off, or adjust its parameters, just reach for your phone! You can also create schedules and timers.

Convenient voice control
Compatibility with intelligent assistants also means you can control your lights with simple voice commands - you don't even have to move! With just a few well-chosen words, you can, for example, turn the light strip on, turn it off, brighten the light or change its color.

Your new, simple way to decorate rooms of your choice
Assembly and configuration of the product will not cause you any problems. Length of 5m gives you almost unlimited possibilities of use. With the LED tape you can originally decorate, for example, kitchen cabinets, desk, wall behind the TV or shelves. Moreover, the device can work with your existing WiFi network - no additional hub is required.
