Ref: 6970801336582

Set of 3 filters ND 4/8/16 PGYTECH for DJI FPV (P-24A-101)

ND Filter Set 4/8/16 for DJI FPV PGY P-24A-101

Do you want even better image quality regardless of lighting conditions? PGYTECH's set of 3 ND filters is sure to meet your expectations! The accessories are made of high quality German SCHOTT glass and a special 2-sided protective coating protects them from stains and damage. The filters are incredibly lightweight and fit perfectly on the DJI FPV. They are also fabulously easy and quick to install.

Highest image quality

Creating stunning aerial photography may be easier than you think. Made from repeatedly ground and polished SCHOTT glass, ND filters give you more control over exposure and allow you to create an interesting dynamic blur effect. You'll also use them to eliminate unwanted reflections while maintaining vibrant, natural colors. With PGYTECH, you can enjoy your flight and create excellent quality, stunning images!

Forget the hassle of cleaning

The filters are surprisingly durable and easy to maintain. They've been coated with a 2-sided, multi-layer nano-coating that repels water and grease, so you can easily keep them clean. The accessories are also scratch-resistant. So they will serve you perfectly for a long time.

### Fast and safe installation

Mounting the filters is child's play and doesn't take much time - you'll be placing the accessory of your choice on your DJI FPV in no time. You also do not have to worry about the safety of your drone's lens - silica gel placed inside the frame effectively protects it from damage.

### Designed for DJI FPV

Fear that accessories will overload your drone and affect flight quality? Don't be! The weight of each filter is only 2.9g. Aluminum frame provides them with an incredible lightness and strength at the same time. The products are also perfectly matched to the DJI FPV. They will not disturb its calibration or balance.
