Teclast P25T Blue 10.1" Tablet

The Teclast P25T tablet in blue combines modernity, performance, and style. This 10.1-inch tablet is perfect for anyone looking for a device for both work and entertainment. With its efficient processor, intuitive operating system, and sleek design, the Teclast P25T becomes an indispensable companion for daily activities.

Design and Texture

The back of the tablet is finished with a unique wavy texture that not only adds elegance but also makes it more practical. The texture provides better grip and reduces the risk of slipping from your hand while creating an eye-catching visual effect.

Intuitive and Secure Operating System

Android 12 is at the heart of the P25T, providing a more personal, secure, and intuitive user experience. With system optimization, the Teclast P25T runs smoothly and efficiently, allowing for easy and hassle-free operation.

Powerful Processor for Demanding Tasks

The quad-core 64-bit processor ensures high performance with low power consumption. Advanced AI algorithms further optimize the device's performance, ensuring smooth operation of applications and games.

High-Quality IPS Display

The 10.1-inch IPS display with a resolution of 1280 x 800 HD offers wide viewing angles (178°) and a clear, vibrant image. This makes watching movies, browsing photos, or reading e-books a true pleasure.

Ample Battery Capacity

The 5000mAh battery ensures long working hours without the need for frequent charging. This is the perfect solution for people who are often on the move and need a device they can rely on all day long.
