Vibrating Massager KiCA K1 for Muscles (Gray)

Take care of your body with the KiCA K1 massager. You'll have 4 levels of vibration speed up to 3800 rpm at your disposal, allowing you to adjust the massage intensity for specific body areas. The device is versatile, whether you need gentle relaxation, deep muscle tissue stimulation, or improved blood circulation. It weighs only 485 g, making it easy to use and transport. A single charge provides up to 11 hours of uninterrupted operation. In the package, you'll find a total of 4 attachments suitable for various massage scenarios.

Efficient and Quiet Operation

The massager's speed reaches up to 3800 rpm, allowing you to enjoy an effective massage and a sense of relaxation. Despite its high performance, the device operates surprisingly quietly, with a noise level of only 65 dB at maximum speed. At the lowest speed (1200 rpm), the sound doesn't exceed 47 dB. You can freely choose from 4 speed levels, adjusting the device's performance to your current needs. A 6 mm range of motion further contributes to a satisfying effect with minimal effort.

Lightweight and Portable Design

The KiCA K1 massager is made of aerospace-grade aluminum 6063, making it lightweight (485 g) and exceptionally durable. Its dimensions are only 91 x 137 x 44 mm, allowing you to easily pack it in a bag and take it anywhere for a pleasant massage after a gym workout or during a long journey. Additionally, the T-shaped design and matte finish provide a secure grip, while the oxidized finish gives

it an elegant look.

Always Ready for Action

The 11-hour battery life with a capacity of 2000 mAh allows for long massage sessions, ensuring the continuity and effectiveness of muscle therapy. Intuitive LED indicators allow you to monitor the device's status in real-time, which is crucial for maintaining your regenerative routine. To recharge the massager's energy, it takes about 2.5 hours, and the included USB-C cable makes this task easy.

Customized to Individual Needs

When designing the KiCA massager, the focus was on diverse relaxation needs, which is why the package includes 4 interchangeable attachments (ball, cylindrical, flat, U-shaped). These attachments allow you to tailor the massage to specific body areas and the desired therapeutic effect. This way, you can comprehensively take care of every muscle group, from gentle relaxation to intense stimulation.

Included in the Package:

KiCA K1 Massager

Ball Attachment

U-shaped Attachment

Flat Attachment

Conical Attachment

USB Cable

Storage Bag
