

Smart Zigbee Temperature And Humidity Sensor Sonoff SNZB-02P

Ref: 6920075740622

Smart Zigbee Temperature And Humidity Sensor Sonoff SNZB-02P (round)

ZigBee Temperature and Humidity Sensor Sonoff SNZB-02P (Round)

The ZigBee Temperature and Humidity Sensor Sonoff SNZB-02P is an innovative device that combines precise measurements, long-lasting battery operation, and advanced smart home features. Designed for monitoring environmental conditions in indoor spaces, this compact and aesthetically pleasing sensor is an ideal choice for those who value accuracy, efficiency, and technological solutions for their homes.

Precision Measurement

A key feature of the SNZB-02P is its exceptional measurement accuracy. This device measures temperature with an accuracy of $\pm 0.2^{\circ}\text{C}$ and humidity with an accuracy of $\pm 2\%$ RH. This precision ensures data reliability, which is essential for maintaining optimal conditions in both homes and offices.

Long Battery Life

The sensor is equipped with a battery with a lifespan of up to 4 years, minimizing the need for frequent replacements and ensuring continuous device operation. This is an ideal solution for those who value low-maintenance devices.

Rapid Data Refresh

Measurement data is refreshed every 5 seconds after each temperature or humidity change. This sensor's quick responsiveness allows for real-time monitoring and response to changing environmental conditions, which is particularly important in dynamic and climate-sensitive environments.

Advanced App Features

The accompanying app for the sensor offers a wide range of functionalities, from saving and exporting data to sending notifications when comfort thresholds are exceeded, and even creating Smart Scenes. These intelligent scenarios allow for the automatic activation of various home devices based on temperature and humidity changes.

Compatibility and Security

The SNZB-02P sensor is compatible with the ZigBee system, ensuring easy integration with other smart home devices. Additionally, the device is equipped with AES-128 security, guaranteeing the safety of transmitted data.

Specifications:

Brand: Sonoff

Model: SNZB-02P

Color: White

Shape: Round

Input: 3.0V

Battery Type: CR2477

MCU: EFR32MG22

Certifications: CE/FCC/ISED/RoHS

Dimensions: 45 x 45 x 17.7mm

Weight: 26.7g

Material: ABS

Pairing Time: 180s

Antenna: Yes

Security Mode: AES-128

Intended Use: Indoor

Operating Temperature: -10°C to 60°C

Operating Altitude: Up to 5000m

Package Contents:

Switch x 1 Screw x 1

Instruction Manual x 1 3M Mounting Sticker x 1

Metal Plate x 1

Preço:

€ 15.01

Casa inteligente, Intelligent Home Control
