

## Solar lamp Superfire FF5-E, 897W, 2000lm, 20000mAh

Ref: 6956362995727

Solar lamp Superfire FF5-E, 897W, 2000lm, 20000mAh

### Superfire solar lamp

Draw energy from the sun's rays! The Superfire lamp is a combination of energy efficient and safe lighting that integrates smart control technologies. FF5-E will work well as street, industrial or commercial lighting. The use of damage-resistant materials and advanced PWM power technology ensures high efficiency in low temperature environments. You can control the lamp with the remote control (included).

### Intelligent operation

The lamp will switch on automatically after dark, thus ensuring the safety of passers-by, and then switch off after dusk. Choose solutions that do not require your intervention. Let us help you!

### Pose for ecological solutions

The lamp has polysilicon solar panels, which greatly saves energy consumption and protects the environment. FF5-E will also save you money on electricity bills.

### Remote control

The included infrared remote control allows you to adjust the light color and run time. That's not all! Do you want the lamp to work only for a while? No problem! Using the remote control, you can set the operating time for 3/5/8 hours. After the set time, FF5-E will

automatically turn off, saving energy.

#### Durable battery

The lamp uses a 6V rechargeable battery that renews the device's energy at night. It features high capacity, stable performance and long working time. It is also equipped with LED chip that positively affects the performance and durability of the device.

#### Prepared for adverse weather conditions

FF5-E by Superfire is IP65 water and dust resistant, making it fearless in downpours. High quality tempered glass is distinguished by high hardness and excellent light transmission. As a result, the light it casts is bright and natural.
