Superfire L6-U Flashlight

The handy Superfire L6-U flashlight provides steady illumination for a wide variety of activities. It has a high-quality LED that guarantees a brightness of 1480 lm. The range of the flashlight is 330 m, which allows you to effectively illuminate a large area. A powerful rechargeable battery and long runtime are also a plus, as well as IP44 water resistance and resistance to a fall from 1 meter.

Reliable light source

The Superfire L6-U provides light with a brightness of up to 1,480 lumens and stands out with a power output of 20 watts. Thanks to this, the flashlight effectively illuminates the way while hiking and allows you to see even the smallest detail during repair work. Its range is 330 meters.

5 working modes

The flashlight offers 5 modes of operation, so you can use it in many different situations. At your disposal are Weak, Medium and Strong modes, as well as Strobe, during which the bright light flashes at a high frequency. There is also an SOS mode to choose from, which will allow you to call for help in an emergency.

Long runtime

The flashlight uses a powerful lithium-ion battery, which provides up to 3 hours of operation thanks to its 3700 mAh capacity. To renew the flashlight's energy, you can use the built-in USB-C port, and after 4.6 hours, the product will be ready for use again. The kit includes one rechargeable battery.

For all weather

The Superfire L6-U flashlight is made of durable aluminum alloy, making it perfect for mountain hiking or tenting. The product is IP44 waterproof, moreover, it is not intimidated by wind, dust and even a fall from a height of 1 meter. It is a perfect companion for extreme expeditions.

Safe use

The flashlight uses a number of solutions that make it extremely convenient and safe to use. The L6-U has protection against reverse battery connection, and is also protected against overcharging and over-discharge. Low weight (193 g) and small size (164 x 45 x 33 mm) make it easy to transport and store the flashlight.
