

Smart Garage Door Opener Meross MSG100HK

Smart Garage Door Opener Meross MSG100HK

Ref: 787446925622

Intelligent Garage Door Opener Meross MSG100HK (HomeKit)

Use this smart garage door opener to keep your vehicles safe and yourself more comfortable. You'll successfully install it on almost any garage door operator system, from older models to the newest ones. Pair it with an app to receive practical notifications. The device is also compatible with smart assistants - including Apple HomeKit and Google Assistant.

Meross app - enjoy remote control

Improve your usual garage door operator system with this practical switch. When combined with the Meross app, it will provide you with a wealth of useful possibilities. With the remote control function, you can open, close and monitor your garage from a distance. You will also receive notifications when the garage door is opened or closed. Do you ever forget to close your garage? No worries! If it's been open for too long or at bedtime, Meross will let you know.

Compatible with multiple devices

Worry that your garage door operator system is already outdated and the MSG100HK won't support it? Don't be! The device is distinguished by its great compatibility - it works with equipment from more than 200 manufacturers and fits up to 1600 models. It supports the latest systems as well as older ones manufactured as early as 1990s!

Compatible with your smart assistant

Do you want additional remote switch control capabilities? Or maybe you want to incorporate the MSG100HK into your smart home? All of these are possible! The device is compatible with Amazon Alexa and Google Assistant - so you can control it by voice. You can also connect the switch to IFTTT. Want more? Meross MSG100HK also works with Apple HomeKit.
