Gaming headphones Havit GAMENOTE H2233d RGB (pink)

Havit H2233D gaming headphones

Now you can easily hear your opponents coming and find yourself even better in the world of your favorite game. The Havit H2233D gaming headphones provide fantastic sound quality thanks to large 50mm speakers, while the soft ear cups fit perfectly on your ears and suppress unnecessary noise. The colorful backlighting gives the device a unique gaming character and the omnidirectional microphone makes it easy to communicate with other gamers. Detachable decorations in the shape of cat ears are an additional ornament of the headphones.

Fantastic sound quality

Dive into the gameplay and don't let your opponents surprise you. With large 50mm drivers, the Havit H2233D headphones deliver an expanded sound field and enhanced bass, so you'll enjoy enhanced immersion and an unforgettable experience. Find out how gameplay can be even more exciting!

Incredibly comfortable

Play for as long as you want and don't worry about getting tired. The H2233D headphones are extremely lightweight and provide unparalleled comfort. The soft ear cups fit snugly around your ears without causing uncomfortable pressure. It also dampens out unnecessary background noise so you won't be distracted from your game. Cut through the noise and don't let yourself get distracted!

Built-in microphone

Do you often play online games? If so, you certainly know how important it can be to communicate with other players. Havit makes it easy for you! The headset's high sensitivity omni-directional microphone accurately registers your voice and makes sure your teammates can hear you perfectly. Thanks to the bendable design, you can easily adjust its positioning to suit your needs and habits. Now you can easily warn your friend in the game about the danger!

Style gaming headphones

Find out that headphones can be not only functional but also extremely stylish. H2233D are equipped with colorful RGB backlighting, which makes them look really great and eye-catching. Want more? In the set you will find cat ears made of durable silicone, which additionally decorate your headphones and give them original and funny character. They are resistant to distortion, and you can easily detach them if needed.
