

Computer Power Supply Aigo AK500 (black)

Computer Power Supply Aigo AK500 (black)

Ref: 6926170086542

Reliable fan

The device is equipped with a 12-centimeter fan, which ensures its effective cooling. What's more, the intelligent temperature control circuit makes the product more durable and works extremely quietly. You won't be annoyed by the loud noise!

Improved design

The AK500 has an excellent quality high voltage electrolyte capacitor and an internal power source circuit board. All this ensures stable operation of the device. The product also supports the latest quad-core, dual-core Intel AMD and other processors.

Durable

The AK500 power supply will serve you well for a long time. It is made of galvanized steel plates, making it durable and resistant to

damage. It is also protected against short circuit, overload, overvoltage, overcurrent and under-voltage.

Plenty of possibilities

The product is matched to modern graphics cards and comes with 2 VGA 6+2 Pin cables, so it can handle up to 2 graphics cards independently. You'll also find the necessary cabling included, with which you can easily connect the power supply to your computer and all its components.

Manufacturer

AIGO

Model

AK500

Maximum power

500 W

Type

Non-modular

Input voltage

200-240 Vac

Input frequency range

50/60 Hz

Dimensions

140 x 150 x 86 mm

Weight

1.23 kg

Cooling system

120 mm, hydraulic bearing

MTBF

> 20 000 h

Operating temperature

0-45°C

Output interface

M/B 20 + 4 Pin x1, CPU 4 + 4 Pin x1, PCI-E 6 + 2 Pin x2, 4 Pin x2, SATA x4

Preço:

€ 35.50

Jogos, Power Supply
