Gaming Headphones Havit H2002E (Black-Green)

Ref: 6939119065164

Havit H2002E gaming headphones

Discover audio excellence and comfort with the HAVIT H2002E gaming headphones. Ideal for gaming enthusiasts, these black headphones combine high quality sound, comfort and versatility to make every gaming session even more thrilling. Designed for long-lasting comfort and exceptional sound clarity, these headphones are an essential accessory for any gamer.

Adjustable headband and comfort

The HAVIT H2002E headphones feature an adjustable headband that allows for a perfect fit for each user. This feature not only provides greater comfort, but also a better fit, which is crucial for sound quality and effective noise isolation.

Great compatibility

Thanks to the use of a universal 3.5mm mini jack plug, these headphones are compatible with a wide range of devices. This versatility makes them ideal for gamers using a variety of platforms, from consoles to PCs.

High-quality omnidirectional microphone

The detachable omnidirectional microphone is a key feature for gamers who want full control over in-game communication. The microphone's high sensitivity and audio clarity ensure that every command and comment is clearly heard by other players.

Intuitive audio control

There is a switch on the headphone cable that allows you to easily adjust the volume and turn the microphone on or off. This functionality provides quick and convenient control, allowing you to adjust the sound settings without interrupting the game.

Comfortable ear cups and lightweight design

Soft protein leather earcups and lightweight design make the HAVIT H2002E headphones extremely comfortable even during long gaming sessions. This comfort is invaluable, especially when gaming requires focus and prolonged engagement.
