Oneisall LM2 Pet Fur Care Kit

The Oneisall LM2 vacuum cleaner is not just a device for keeping your home clean but also an invaluable kit for comprehensive pet fur care. Designed with pet lovers in mind, it combines fur brushing, trimming, and even nail grinding functions. With its low noise level and high suction power, the Oneisall LM2 is the perfect solution for maintaining your pet's appearance and hygiene while keeping your home clean.

Brushing and Vacuuming

This device allows simultaneous brushing and vacuuming while easily removing loose fur directly into the vacuum's tank. This is achieved with one of the brushes included in the kit - its clever design traps the hair, eliminating the issue of fur flying around your home during pet grooming.

Paw Trimmer

The included paw trimmer is an ideal tool for precise removal of hair between your dog's paw pads. It is easy to use and safe for your pet's skin, making paw care quick and efficient.

Quiet Operation

The Oneisall LM2 is characterized by a low noise level below 60dB, which is quiet enough not to cause stress to your pets. You can confidently care for your pet without worrying about their discomfort.

Complete Care Kit

The kit includes a range of accessories, including various nozzles, a nail grinder, and attachments that make fur and nail care for your dog easy and convenient in the comfort of your own home.

High Suction Power

With a suction power of 10,000pa, the vacuum ensures efficiency not only in cleaning but also in removing loose pet fur.
