Powerbank Baseus Magnetic Mini 10000mAh 20W MagSafe (black)

Baseus Magnetic Mini 10000mAh 20W MagSafe Magnetic Power Bank (Black)

The Baseus Magnetic Mini Magnetic Power Bank is a compact and highly functional device that effectively meets the needs of fast and convenient charging. It supports fast charging with a power output of up to 20W, and the built-in magnets provide stable and secure attachment to your device, allowing for hands-free charging. Additionally, the ability to charge two devices simultaneously, both wirelessly and wired, and compatibility with phones with magnetic charging cases make this device incredibly versatile. All of this is enclosed in a stylish case with practical LED indicators and multiple safety features, making the Baseus Magnetic Mini an excellent choice for those who value reliability and ease of use.

### Wireless Charging

The Baseus Magnetic Mini Power Bank offers wireless charging with a power output of up to 15W, providing a convenient option for those who value freedom. Compatibility with MagSafe technology allows you to quickly attach the power bank to the back of your device and start charging without the need for additional configuration.

### Multi-Functional Cable

The integrated USB-C cable serves a dual purpose, allowing you to charge both your phone and the power bank itself. Furthermore, the cable can be plugged back into the power bank's port, creating a practical loop that serves as a carrying strap. This solution provides

additional functionality and makes using the power bank even more convenient.

#### Compatibility with Charging Cases

The Baseus Magnetic Mini Power Bank is compatible with phones equipped with magnetic charging cases, further expanding its capabilities. The built-in magnets with a strength of 13N ensure that the devices will securely hold together, regardless of conditions, providing stable and safe charging. This is a solution appreciated by those who seek reliability and versatility in a compact device.

#### Multiple Safety Features

Safety of use is a crucial aspect of any electronic device, and the Baseus Magnetic Mini Power Bank is no exception. It offers a range of protections, including protection against overcharging, discharging, voltage issues, as well as temperature, overcurrent, short-circuit, and electrostatic protections. This comprehensive protection ensures the safe use of the power bank, protecting both the device and the user.

#### Compact Dimensions and LED Indicators

Its small size makes it easy to take on trips or to work, and it does not obstruct the phone's camera lenses. The LED indicators provide information about the battery's status, allowing for a quick assessment of when recharging the power bank may be needed. All of this makes the Baseus Magnetic Mini a practical and reliable tool.
