

## Powerbank Baseus Magnetic Mini 10000mAh 20W MagSafe (mint)

Ref: 6932172642716

Powerbank Baseus Magnetic Mini 10000mAh 20W MagSafe (mint)

### Baseus Magnetic Mini 10000mAh 20W MagSafe Magnetic Power Bank (Mint)

The Baseus Magnetic Mini Magnetic Power Bank is a compact and highly functional device that effectively meets the needs of fast and convenient charging. It supports fast charging with up to 20W of power, and built-in magnets ensure stable and secure attachment to the device, allowing for hands-free charging. Additionally, the ability to charge two devices simultaneously, both wirelessly and wired, as well as compatibility with phones with magnetic charging cases, make this device incredibly versatile. All of this is enclosed in a stylish case with practical LED indicators and multiple protections, making the Baseus Magnetic Mini an excellent choice for anyone who values reliability and user comfort.

### Wireless Charging

The Baseus Magnetic Mini Power Bank offers wireless charging with up to 15W of power, which is a convenient option for those who value freedom. Compatibility with MagSafe technology allows for quick attachment of the power bank to the back of the device and starting charging without the need for additional configuration.

### Multi-Functional Cable

The integrated USB-C cable with the power bank serves a dual purpose - it allows for charging both the phone and the power bank itself. Furthermore, the cable can be plugged back into the power bank's port, creating a practical loop that serves as a strap for transport. This

solution provides additional functionality and makes using the power bank even more convenient.

#### Compatibility with Charging Cases

The Baseus Magnetic Mini Power Bank is compatible with phones equipped with magnetic charging cases, further expanding its capabilities. Built-in magnets with a strength of 13N ensure that devices will securely hold, regardless of conditions, providing stable and safe charging. This is a solution appreciated by those who seek reliability and versatility in one compact device.

#### Multiple Protections

Safety of use is a key aspect of any electronic device, and the Baseus Magnetic Mini Power Bank is no exception. It offers a range of protections, including protection against overcharging, discharging, voltage, as well as temperature, overcurrent, short-circuit, and electrostatic protections. This comprehensive protection ensures safe use of the power bank, protecting both the device and the user.

#### Compact Dimensions and LED Indicators

Its small size makes it easy to take on trips or to work, and it doesn't block the phone's camera lenses. LED indicators provide information about the battery status, allowing for a quick assessment of when recharging the power bank may be needed. All of this makes the Baseus Magnetic Mini a practical and reliable tool.
