Smart Visual Ear-Clean Rod Bebird Note 5 pro (blue)

Otoscope with Camera for Ear Cleaning - Bebird Note 5 Pro (Blue)

Bebird will revolutionize your approach to ear hygiene. The Bebird Note 5 Pro otoscope combines a high-resolution 10 MP camera with a 3.2 mm endoscopic head, providing a crystal-clear image inside the ear. The gyroscopic stabilizer with adjustable stabilization ensures stable and precise operations without shaking. The integrated Wi-Fi system allows easy access to the image through the Bebird dedicated app, available on the App Store and Google Play, enhancing user convenience. The battery provides an hour of uninterrupted work, and advanced features such as intelligent temperature control and LED lighting enhance safety and comfort of use.

High-Quality Imaging for Precise Diagnosis

The Bebird Note 5 Pro otoscope guarantees exceptional precision - a 10 MP camera equipped with a CMOS sensor transfers the image of the ear interior to your smartphone screen with astonishing detail. A transmission speed of 20 fps ensures smooth movement. Nano lenses are resistant to water, dust, and scratches, ensuring image sharpness even in challenging conditions.

Convenient Access to the Image

The integrated Wi-Fi microprocessor enables stable and fast wireless connection, allowing real-time analysis of the camera's view in the dedicated Bebird app, available on the App Store and Google Play. High-quality gyroscopic stabilization ensures precise maneuvers without worrying about shaky hands. This makes ear cleaning safer and more comfortable.

Proven Effectiveness

Bebird sets a new standard in ear hygiene. Studies involving 100,000 participants revealed that 39.7% experienced a noticeable improvement in ear canal cleanliness. The otoscope allows for precise and safe cleaning, appreciated by 31.3% of respondents. Thanks to advanced visualization, mechanical construction, and 360° adjustable innovative handle, the device provides convenient access to all parts of the ear and outstanding effectiveness.

Long Battery Life

A 230mAh battery ensures up to an hour of work on a single charge. Recharging the otoscope takes just an hour. This means that the Bebird Note 5 Pro otoscope is almost always ready for work, allowing you to enjoy comprehensive ear hygiene with innovative technology.

Additional Advantages

Thanks to intelligent temperature control, the Bebird Note 5 Pro otoscope does not overheat, and the eye-safe LED lighting facilitates ear cleaning and examination. The device is also distinguished by its lightweight and compact design, allowing for daily health check-ups and wax removal from the ears, nose, and throat both at home and while traveling. Moreover, it has an elegant silky texture.

Included in the Package:

Otoscope with Camera

Base

Ear Spoon x6

Ear Dome x6

Ear Canal Protective Plug

Double-sided Cleaning Brush

Alcohol Wet Wipe x5

Softening Cloth x5

Charging Cable

User Manual

□Manufacturer
