Mini Flashlight Nextool NE20069, 1200lm

Ref: 6973907630158

#### Nextool mini flashlight NE20069

Compact design, stable illumination and efficient power source are the main advantages of the Nextool NE20069 mini flashlight. The device weighs only 164 g and you can easily store it in your backpack or pocket. The flashlight offers 4 modes of operation, and its maximum brightness is 1200 lm. The 2400 mAh battery provides up to 100 h of operation (at 20 lm brightness), moreover, the flashlight can serve as a powerbank, as it supports 10W fast charging.

#### Tailored to your needs

The Nextool NE20069 mini flashlight offers 4 lighting modes, making it suitable for many different situations. At your disposal are Highest lumen, Middle lumen and Low lumen modes, as well as Strobe lighting. To change the type of illumination, just press the dedicated button in the appropriate way. A single click will change the lumens level, while a double click will turn on the Strobe lighting mode.

#### 3 brightness levels

Thanks to the high-quality LED, the flashlight provides even, stable illumination and effectively brightens the selected space. In Highest lumen mode, the device generates light with a brightness of 1200 lm and has a range of 190 m. The Middle lumen mode features a brightness of 300 lm and a range of 90 m, while the Low lumen mode provides illumination with a brightness of 20 lm and a range of 25 m.

#### Efficient power source

A 2400 mAh rechargeable battery is responsible for the long runtime, which allows you to use the flashlight for 4.5 h at 1200 lm brightness, 9 h at 300 lm brightness and up to 100 h at 20 lm brightness. What's more, the flashlight is perfect for use as a powerbank and allows for 10 W fast charging. To renew the device's energy, just use the built-in USB-C port - it will take about 3.5 h to charge.

#### Manufacturer

Nextool

#### Model

NE20069

#### Material

6061-T6

#### Brightness

1200 lm / 300 lm / 20 lm

#### Power source

Rechargeable 2700

#### Rechargeable battery capacity

4500 mAh

#### Working time

100 h (20 lm) / 9 h (300 lm) / 4.5 h (1200 lm)

#### Charging time

Approx. 3.5 h

#### Lighting distance

190 m (max.)

#### Drop resistance

1 m

#### Dimensions

126.5 x Ø29 mm

#### Weight

164,5 g

#### Waterproof

IPX4
