Thunderrobot G4 Backpack (black-gray)

Thunderbot G4 is a backpack made of melange yarn with a capacity of 15.8l. It can fit laptops up to 17.3 inches in diagonal, but also accessories such as a keyboard, headphones, mouse, and more. The bottom of the backpack is made of black material, making any dirt less visible. It has one large zippered compartment. On the front, there is another zippered pocket. The backpack's straps are adjustable so the user can fit them according to their preference.

Versatility and capacity

The Thunderrobot G4 backpack is not just an ideal place to store a laptop. With its capacity of 15.8l, it can store devices up to 17.3 inches in diagonal. Inside, users will find space for a keyboard, headphones, mouse, and many other accessories. Thanks to the backpack's design, everything will always be organized and easily accessible.

Durability and aesthetics

Made from 300D melange yarn, the backpack is both stylish and resistant to daily challenges. The black and gray color scheme gives it an elegant, modern look, and the black bottom ensures that potential dirt won't be easily visible. The 210D lining further protects the contents of the backpack.

Comfort of wearing

Adjustable straps are key to comfortably carrying the backpack all day. With them, the Thunderobot G4 adapts to the anatomical needs of every user. Its light weight, around 0.5 kg, ensures that the backpack doesn't strain the back.

Thoughtful design

The large main compartment with a zipper and an additional front pocket make organizing and accessing all your things easier. This means users can always have essential accessories on hand, without wasting time searching for them.

Perfect dimensions

With dimensions of 320mm x 135mm x 490 mm, the Thunderobot G4 backpack is perfect for both short trips and daily use. Despite its large capacity, its compact size makes it an incredibly practical travel companion.
