Smart motion sensor Wi-Fi Gosund S4

Enhance the security in your home. The intelligent sensor Gosund S4 reliably detects motion - when someone enters its range, you will receive an instant notification on your phone. The product can also work with other smart devices such as lights, alarms, or cameras. There are 2 ways to power it - via USB or with two AA batteries. The sensor is also very easy to install.

Ensure Your Safety

You no longer have to worry about strangers entering your home without your knowledge. If the Gosund S4 sensor detects any motion, it will immediately send you a notification on your phone! The device has a range of up to 8 meters and a wide detection angle of 128°. This ensures reliable detection of any potential intruders!

Connect It with Other Devices

The S4 model can work with other smart devices such as bulbs, cameras, and more. So, you can connect it to your chosen equipment and create automations! This way, for example, when someone enters the sensor's range, the lighting or alarm will automatically turn on.

2 Power Options

The Gosund S4 sensor can be powered in 2 ways - via USB or using two AA batteries, which will last even for a year of usage. Choose the option that suits you best! The device also stands out for its low energy consumption.

Easy Installation

Installing the sensor will also not pose any problem for you. You can mount it in any location using screws or stick it to the wall using 3M tape - everything you need is included in the kit. You don't need any additional tools!
