HuntKey HK360 Computer Case

Ref: 4894788001276

HuntKey HK360 computer case

Now you can create a computer that meets your expectations in every way! The HuntKey HK360 computer case works with a variety of components and offers many expansion options. PCI-E slots as well as USB and audio connectors are additional conveniences that make it easy to connect various devices and expansions.

Create the perfect computer for you

Create your dream computer with the HuntKey HK360! The case allows you to mount 3.5" HDD and 2.5" SSD drives, giving you enough space for data storage, as well as a graphics card with a maximum length of 330 mm and a CPU cooler up to 155 mm long. What's more, it works with ATX, M-ATX and Mini-ITX standard motherboards, which means you have full freedom in your choice of components.

Various expansion possibilities

The HuntKey HK360 chassis has 7 PCI-E slots, giving you the opportunity to expand your system with additional expansion cards. You'll also find practical connectors on the front of the case, including two USB 1.1 ports and one audio port, allowing you to connect various devices. The HK360 also offers fan mounting options - you'll find room for a 120mm fan on the back and side, which will help you keep your CPU at the right temperature during intensive work.
