Royal Kludge KZZI K75 pro RGB mechanical keyboard, Eternity Switch (black and white)

Are you looking for a proven piece of hardware that will perform equally well for work and entertainment? Royal Kludge mechanical keyboard will be the perfect choice! It will adapt to you in every way, as you can not only freely exchange switches in it, but also connect to it in different ways. What's more, its well-thought-out design will ensure uninterrupted comfort during use, and its built-in rechargeable battery will ensure long working time.

Many possibilities

The Royal Kludge keyboard was created with many usage scenarios in mind. It is equipped with multiple ports including USB-A and 2x USB-C, so you can connect several devices to it simultaneously. It is compatible with phones, storage devices, mice, headphones, and that's not all! What's more, you'll find a special cover included to protect the keyboard from dust and water.

Thoughtful design

What sets the Royal Kludge keyboard apart is its well-thought-out design. It was created with durable materials, so I show great durability and resistance. What's more, its multi-layered structure helps reduce noise, so it will work quietly and won't disturb others in the room. In addition, it is equipped with larger keys, for better working comfort. It also has special places for the receiver and non-slip feet, so it will always stay in place.

With gamers in mind

If you are a fan of games, this keyboard is also for you! It allows you to change switches freely, and the included special key will make this task easier. What's more, it uses anti-ghosting technology, which counteracts the lack of correct response to pressing several buttons at the same time, so you will be able to play freely and always respond in time. In addition, the keyboard is equipped with RK moment switch, which is more stable and faster, which will be perfect for gaming fans.

Tailored to your needs

The Royal Kludge keyboard will adapt to your needs. In the dedicated PC application, you can change its settings according to your expectations. Among other things, you will be able to change the use of the keys or choose the backlighting you are interested in. This will personalize the keyboard and make your work even more comfortable!

Multiple connection options

Royal Kludge responds to the needs of users and gives you the opportunity to connect to the keyboard in as many as 3 different ways! If you are a fan of traditional solutions - choose a wired connection, using a cable. However, if you want to get rid of tangled wires, connect to selected devices using a 2.4 GHz network or Bluetooth (in which you can connect to as many as 3 devices simultaneously). Moreover, you can conveniently switch between connected devices, thanks to a special switch, located on the keyboard.

Long working time

Worried that the keyboard will lose power at the least opportune moment? With Royal Kludge, you can abandon those fears! It is equipped with a 3750 mAh battery, so it can work for up to 130 hours. What's more, it has been equipped with a special display that informs you about the current state of charge. From today you will renew its energy always on time!

RGB backlighting

Give your work more colors! Royal Kludge keyboard is equipped with RGB backlighting, which includes up to 16.80 million colors. What's more, there are also 14 different modes at your disposal. Customize the colors for your current mood or gameplay and give your keyboard a unique look!

High compatibility

The Royal Kludge device exhibits high compatibility, so you don't have to worry that it won't work with your hardware. It works with phones, mice, headphones, however, not only! You also don't have to worry about the operating system you use, as this keyboard will work with Windows, iOS/ Mac OS, Android and Linux. Enjoy exceptional freedom!
