Mechanical keyboard Royal Kludge RK96 RGB, brown switch (blue)

Royal Kludge RK96 RGB Mechanical Keyboard, Brown Switch (Blue)

Are you looking for a reliable piece of equipment that will excel both at work and during leisure time? The Royal Kludge mechanical keyboard is an ideal choice! It will adapt to you in every way, as you can not only easily swap switches but also connect to it in various ways. What's more, its well-thought-out construction will ensure uninterrupted comfort during use, and its built-in battery will provide a long working time.

Many Possibilities

The Royal Kludge keyboard was designed for various usage scenarios. It is equipped with multiple ports, including 2x USB and USB-C, allowing you to connect several devices simultaneously. It is compatible with phones, mass storage devices, mice, headphones, and more! Furthermore, it uses RK Brown switches, making it easy and quick to use. It is perfect for office work.

Well-Thought-Out Construction

What sets the Royal Kludge keyboard apart is its well-thought-out construction. It is made of durable materials, ensuring high durability and resistance. Furthermore, its multi-layer structure allows noise reduction, ensuring quiet operation that won't disturb others in the room. Moreover, it allows for easy switch replacement. In the package, you will find a magnetic wrist rest for comfortable wrist support.

Customized to Your Needs

The Royal Kludge keyboard will adapt to your needs. In the dedicated computer application, you can change its settings according to your expectations. You will be able to change key functions and choose your preferred lighting, personalizing the keyboard for even more comfortable work!

Multiple Connection Options

Royal Kludge responds to users' needs and offers the possibility to connect to the keyboard in 3 different ways! If you prefer traditional solutions, choose the wired connection using a cable. However, if you want to get rid of tangled wires, connect to your selected devices via 2.4 GHz or Bluetooth (where you can connect to up to 3 devices simultaneously). Moreover, you can easily switch between connected devices using a special switch located on the keyboard.

Long Battery Life

Worried that the keyboard will run out of power at the most inconvenient moment? With Royal Kludge, you can leave those worries behind! It is equipped with a 3750mAh battery, allowing it to work for up to 250 hours (with the backlight turned off). Don't worry even when its power is depleted, as you can recharge it in approximately 6-7 hours.

RGB Lighting

Add more colors to your work! The Royal Kludge keyboard is equipped with RGB backlighting, covering up to 16.8 million colors. Moreover, you have 14 different modes at your disposal. Customize the colors to match your current mood or the game you're playing, giving your keyboard a unique look!
