Blitzwolf BW-GTS3 smartwatch (black)

The BlitzWolf BW-GTS3 is your new companion for everyday life and sports activities. The smartwatch is the perfect combination of style and functionality. It allows you to monitor the state of your health, is a support for keeping fit, or an assistant for convenient and effective communication. BW-GTS3 is ready to support you in every aspect of your active life. With a sleek design and 123 sports modes, the smartwatch not only tracks your progress, but also inspires you to achieve new goals. Get ready to push your limits and discover new opportunities with the BlitzWolf BW-GTS3 - your personal assistant.

A versatile partner for the active

The BlitzWolf BW-GTS3 smartwatch is a device that combines advanced technology with elegant design. Equipped with the latest version of Bluetooth 5.3, it provides a stable and fast connection to your smartphone. Compatible with Android 5.0+ and iOS 10.0+, it is a universal solution for a variety of devices.

Health and activity monitoring

The BW-GTS3 is equipped with advanced health monitoring features: from monitoring heart rate, blood pressure, and blood oxygen levels, to monitoring sleep, to measuring calories burned and distance traveled. With these features, you have full control over your health and fitness. With this information, you will better understand your behavioral patterns and, if necessary, eliminate those that do

not serve you.

123 sports modes for every type of activity

With 123 sports modes, the BW-GTS3 smartwatch is ideal for anyone with an active lifestyle. Whether you're jogging, swimming, cycling or golfing, this smartwatch will help you track your progress and achievements.

A new level of communication

The BlitzWolf BW-GTS3 smartwatch allows you to receive calls directly on your wrist. This convenient option means you can stay in touch with loved ones and co-workers in any situation, whether you're on the go, at a workout or simply don't have your phone with you. Plus, with push notifications, the BW-GTS3 ensures that you won't miss any important information or alerts. All notifications from your smartphone - text messages, social media notifications or calendar reminders - are available at your fingertips.

Intuitive app

The watch works with the dedicated Da Fit app. It is intuitive to use and offers many features, such as music control, remote control of your phone's camera, screen brightness adjustment and more. The BlitzWolf BW-GTS3 will also remind you to drink water and stay active when you've been sitting too long. Support for multiple languages, both in the system and the app, makes the BW-GTS3 accessible to users around the world.

Capacious battery and waterproof design

Your personal assistant will be with you whenever you need it! With a 680mAh battery, the smartwatch offers up to 75 days in standby mode and 10-15 days in normal use mode. Magnetic charging is fast and convenient - after 3-4 hours it is fully ready for further challenges. The 5ATM IP69 water resistance rating allows you to use the watch even while swimming!

Rugged design

With the BlitzWolf watch you can conquer peaks - even in the most extreme conditions. The metal case and tempered glass ensure durability, while the silicone strap guarantees wearing comfort. The large, easy-to-read 1.96-inch screen with a resolution of 320*386 pixels offers excellent visibility even in bright sunlight.
