Interactive Dog Ball - Cheerble Wicked Ball PE (Red)

Provide your beloved dog with great entertainment with the Cheerble Wicked Ball PE - an interactive ball that offers 3 operating modes and features LED lighting in 4 colors, making every minute of play full of surprises. The device is made of natural rubber, making it not only durable but also safe for your furry friend. Additionally, with an IP65 waterproof rating, your dog can have a great time even on rainy days. The toy is designed for medium and large dogs, and you can recharge its energy using the included DC cable.

Surprise-filled Playtime

Cheerble understands the diverse temperaments of our furry companions, which is why the Wicked Ball PE offers 3 operating modes. The Passive mode is perfect for puppies, providing a calm playtime and reacting to contact by gently bouncing off surfaces, allowing for gradual trust-building with your pet. In Normal mode, the ball rolls and bounces, serving as an excellent source of daily entertainment and mental stimulation for dogs with standard energy levels. Meanwhile, Gentle mode is designed for older dogs or those who prefer a gentler form of interaction - when you choose this mode, the toy will slowly roll and gently shake in response to touch.

Stimulation of Natural Instincts

Cheerble's patented CeerBoost™ technology makes the Wicked Ball PE mimic the movements of natural prey, engaging dogs in healthy and enriching play. The ball is 40% more elastic than previous models and generates only 78 dB of noise. Additionally, it offers LED

lighting in 4 colors – cyan, yellow, red, and multicolored, making playtime visually captivating.

Durable and Pet-Safe

The Cheerble Wicked Ball PE is made of 7 mm thick natural rubber that is resistant to biting and can withstand even the most enthusiastic play. With an IP65 waterproof rating, the toy can be used both indoors and outdoors, meaning fewer restrictions – your beloved dog can have a great time outside as well! Moreover, the ball has a diameter of only 78 mm and weighs no more than 238 g, making it easy to take it anywhere with you.

Effortless Charging and Maintenance

With Cheerble, the fun never ends! The interactive Wicked Ball PE is equipped with a 300 mAh lithium-polymer battery that provides up to 4 hours of entertainment on a single charge. The package includes a DC charging cable, allowing you to prepare the toy for further interaction with your pet. Additionally, cleaning it is a breeze – you can easily wash it under running water.

Included in the Package:

Interactive Cheerble Wicked Ball PE

DC Charging Cable
