

Sonic toothbrush with head set FairyWill 508 (White)

Ref: 6973734202719

Sonic toothbrush with head set FairyWill 508 (White)

FairyWill 508 sonic toothbrush

Now you can take even better care of your dental health and hygiene. The ADA-approved FairyWill 508 sonic toothbrush generates vibrations at up to 40,000 per minute for fast, thorough and effective cleaning. It also offers a smart 2-minute timer and 5 modes. It also stands out with its IPX7 water resistance and long working time. Not only will you find a toothbrush in the kit, but also 4 interchangeable heads.

More thorough cleaning

Enjoy a beautiful smile. The toothbrush is equipped with a durable motor that can generate vibrations at a high frequency, thus cleaning your teeth thoroughly. It easily reaches even hard-to-reach areas and effectively removes food debris, plaque and stains. What's more, the smart timer will remind you every 30 seconds with a short pause to change the area you're brushing, and after 2 minutes, the toothbrush will automatically stop.

5 modes

The device supports 5 modes, so it can meet even the most diverse expectations of users. Clean is good for everyday use, White allows you to whiten your teeth and Polish polishes them. Massage mode not only provides an effective cleaning but also a gum massage. The Sensitive mode will especially benefit beginners and those who have sensitive teeth.

Long runtime

Forget about inefficient toothbrushes that discharge very quickly. The FairyWill 508 will surprise you with its long runtime - when you fully charge it, you can use it for up to 30 days! It takes about 4 hours to charge the device. The USB interface makes it possible to connect it not only to a charger, but also, for example, to a powerbank or laptop.

Specially designed heads

The 508 head is equipped with premium Dupont bristles that allow you to brush your teeth thoroughly yet safely. To ensure hygienic use and avoid the proliferation of bacteria, you should replace it once every 3 months or so. However, you don't have to remember to do this! When the time is right, the special blue bristles will begin to fade, reminding you that you need to change the head for a new one.

Portable and waterproof

Fearlessly brush your teeth in the bathtub, over the sink or even in the shower. The toothbrush is IPX7 waterproof, which means it's not afraid of accidental splashes. It's lightweight and compact enough to go anywhere, so it won't take up much space in your suitcase. Take it on vacation and dazzle with a snow-white smile wherever you go!
