

## ORICO External Hard Drive Enclosure, USB3.0 5Gbps to SATA 2.

Ref: 6936761868648

ORICO External Hard Drive Enclosure, USB3.0 5Gbps to SATA 2.

Transparent Hard Drive Case Orico 2139C3-CR-BP

Don't take any chances and protect your hard drive from any damage and data loss. The enhanced Orico 2139C3-CR-BP-CR enclosure is perfect for all 2.5" hard disk drives equipped with a SATA serial port and the USB 3.0 interface allows for fast data reading and transferring. Enjoy the comfort of your files and don't worry about their safety anymore.

Speed and durability for years to come

Thoughtful design allows for easy installation, but also thanks to the materials from which the casing was made, it protects your hard drive against damage, overheating and short circuits. The usb 3.0 interface has been designed to keep the drive running smoothly, so that you can browse your data even more intuitively.

Easy installation

Inserting the hard drive into the enclosure is trivial. Just undo the screws, insert the drive, screw it in and you are done! Connect with your device without any drivers and freely use your drive wherever you want. Use the enclosure for safe transportation and carry it in your backpack or bag without worry.

Wide compatibility

The universal USB input allows you to connect to multiple devices and is compatible with Windows 2000 / XP / 7 / 8 / 10, Linux, Mac OS 9.1 and above. Let go of all restrictions and work on the most convenient hardware for you using its capabilities to the maximum.

Do not limit yourself

Massive amounts of data? Or maybe countless movies and your favorite music? The Orico transparent enclosure can accommodate hard drives up to 4Tb to store your most important data, souvenirs from vacations or music you like to listen to. Enjoy the many possibilities that memory expansion gives you...
