Electric Hair Clipper and Trimmer Glaker GL K11S+I3F

You no longer need to use professional hairdressing services to enjoy an aesthetic appearance. The Glaker GL K11S electric clipper utilizes a motor operating at a speed of 5500 RPM, which, combined with high-quality blades, guarantees satisfying cutting results. The device allows you to create creative designs, and its runtime reaches approximately 5 hours on a single charge. You also have the I3F trimmer at your disposal, offering up to one and a half hours of continuous operation. The set also includes 15 comb attachments in various sizes.

Self-Sharpening Blades and Efficient Motor

The Glaker clipper is equipped with advanced self-sharpening blades that allow for precise cutting without the risk of pulling or snagging hair. The motor, operating at a speed of 5500 RPM, also contributes to the impressive performance of the device, reducing grooming time and enabling efficient operation, even with thick and hard-to-style hair.

Limitless Cutting

By using the Glaker clipper, you gain the opportunity to test your artistic carving skills. The device allows for precise and creative hair modeling, making it suitable for hairstylists and stylists as well.

Complete Comb Attachments Set

The set includes a total of 15 comb attachments, including 12 in sizes ranging from 1.5 to 15 mm and 3 in sizes ranging from 1 to 3 mm. With these attachments, you can tailor the devices to individual preferences. Choose the one that suits you and experiment with various lengths and styles!

Fast Charging and Long Runtime

The clipper is equipped with a 2500 mAh lithium-ion battery, providing approximately 5 hours of operation on a single charge. This allows you to comfortably cut hair without worrying about the device running out of power at an inconvenient time. Meanwhile, the trimmer's 700 mAh battery ensures up to one and a half hours of operation on a single charge. A practical LED indicator will inform you when it's time to connect the equipment to a power source.

Effortless Maintenance

The blade disassembly is smooth and trouble-free, making it much easier to maintain the clipper, trimmer, and all accessories in cleanliness. As a result, you can be confident that cutting takes place in hygienic conditions.
