design (69 g) mean you can take it anywhere you need to go.

Wireless freedom

Forget about cumbersome cables! The XO WX026 wireless charger provides hassle-free and efficient charging for your devices. Just place your device on it and the charger will start delivering power instantly! It offers up to 7.5 watts of power for iPhones and up to 15 watts for Android smartphones, and thanks to its compatibility with the Qi protocol, it will intelligently adjust the charging power to the requirements of your device.

No worries about security

The XO WX026 features an intelligent foreign object recognition system to avoid dangerous charging situations. This allows the charger to automatically detect any unknown objects placed on its surface, minimizing the risk of damage.
