Ref: 6976210081259

Monitor Koorui N02 27" 1920x1080px 100Hz HDR10

### Koorui N02 27" 1920x1080px 100Hz HDR10 Monitor

The Koorui N02 monitor utilizes advanced image technologies to deliver realistic experiences and exceptional immersion in the virtual world. Its 27-inch IPS screen offers not only full HD resolution (1920x1080p) and a 100Hz refresh rate but also boasts 99% sRGB color gamut coverage, resulting in impeccable color accuracy. Built-in speakers ensure high-quality audio, and HDMI 1.4 and VGA ports allow convenient connectivity with compatible devices.

### Impressive Resolution

Full HD resolution at 1920x1080p ensures crystal-clear and sharp images, allowing you to notice every detail. Meanwhile, a 100Hz refresh rate ensures smooth motion and no lag, which is essential for playing dynamic games and watching action movies. The Koorui N02 monitor also utilizes synchronization technology, eliminating the risk of screen tearing and enhancing visual experiences.

### HDR and Color Depth

HDR10 technology combined with 90% DCI-P3 and 99% sRGB coverage offers exceptionally realistic color reproduction and deep blacks. This allows you to enjoy video materials with incredibly vibrant colors. The offered quality will surely be appreciated by graphic designers, photographers, and digital image enthusiasts.

### High-Quality Audio

The Koorui N02 monitor is equipped with dual speakers (2W each), eliminating the need for external speakers. This allows you to save space while enjoying high-quality sound.

### Comfort You Deserve

The 27-inch IPS panel guarantees a wide viewing angle (178°), ensuring high image quality regardless of the viewing angle. You can conveniently adjust the monitor's vertical tilt angle from 5° to 20°.

### Scenario for Every Occasion

The Cinema mode provides optimal settings for watching movies by enhancing contrast and color saturation. Meanwhile, in the Eye Protection mode, the monitor reduces the emission of blue light, which can be harmful to the eyes. You also have access to the RTS mode, optimized for strategy games, and the FPS mode, perfect for first-person shooter games. Get ready for incredible entertainment!

### Refined Design

The sleek design of the Koorui N02 monitor seamlessly blends with any interior. You can easily mount the device on the wall (standard VESA 75 x 75 mm) using M4x8 mm screws to free up more space and arrange your workspace or home freely. Additionally, HDMI 1.4 and VGA ports allow connection to computers, multimedia players, and gaming consoles, while the audio input allows for headphone or external sound system connection.
