Ref: 6955038346238

Lention USB-C to 4K60Hz HDMI cable, 3m (silver)

Lention USB-C to 4K60Hz HDMI cable, 3m (silver)

Discover a new dimension of entertainment with Lention! The USB-C to HDMI cable allows you to watch your favorite content in Ultra HD resolution, with amazing smoothness and image detail. It supports 2 video display modes, and the built-in chip ensures uninterrupted signal transmission.

Resolution that delights

Get ready for an unforgettable visual experience! The cable supports 4K@60Hz resolution, allowing you to smoothly and clearly display images with astounding details, intense colors and deep contrasts. Watch your favorite movies, games and multimedia content in amazingly high quality that transports you to the heart of the action.

Expand your workspace

The Lention cable supports Mirror and Extend display modes, which means you can customize the way you use your screen. The former allows you to duplicate your screen onto a larger screen, while the latter allows you to extend your computer's desktop onto a second screen. This is a great option if you need extra space to work or want to use multiple applications at the same time, while maintaining full control over both screens.
