

## Lention USB-C to 8K60Hz DisplayPort cable, 1.7m (black)

Ref: 6955038346948

Lention USB-C to 8K60Hz DisplayPort cable, 1.7m (black)

Lention USB-C to 8K60Hz DisplayPort Cable, 1.7m (black)

Discover new possibilities with Lention's USB-C to DisplayPort cable! The cable allows you to transfer images and audio of the highest quality, up to 8K@60Hz, to external DisplayPort (DP) equipped devices for an amazing visual experience. It's made of high-quality materials for fast heat dissipation and durable nylon to protect against damage.

Watch movies in the highest resolution

Now you can enjoy a cinematic experience in your own home, watching movies, TV series and games in the highest quality. The cable supports resolutions up to 8K@60Hz, making every detail exceptionally clear and colors intense. It also offers an incredibly smooth viewing experience, eliminating lag, screen tearing or blurring.

Easy setup, wide compatibility

You don't have to worry about complicated configurations, the cable supports Plug&Play, that you connect it to your USB-C-enabled device and DisplayPort-enabled monitor, TV or projector, and you're done! Thanks to its wide compatibility, it is ready to work with many devices, regardless of the operating system. It supports Mac, Windows, and Linux systems alike, so you're free to use it across platforms.

2 display modes

The Lention cable offers full flexibility in your choice of display mode. With support for Mirror and Extend modes, you can tailor the display to your individual needs. Mirror allows you to duplicate your screen on a larger monitor, while Extend extends your desktop to a second screen, providing more space for work or entertainment.
