

## Filter PolarPro CP for DJI Mini 4 Pro

Filter PolarPro CP for DJI Mini 4 Pro

Ref: 810148700188

PolarPro CP polarizing filter for DJI Mini 4 Pro

PolarPro polarizing filter is dedicated to DJI Mini 4 Pro. It effectively eliminates reflections and glare, provides clear contrast and increases saturation. Thanks to its rotating design, you can change the polarization effect to suit your needs. It allows you to take photos in both landscape and portrait modes, and the filter's light weight does not affect your drone's flight.
