Set Smart remote control Hub + 3x Thermo-Hygrometer SwitchBo

Set Smart remote control Hub + 3x Thermo-Hygrometer SwitchBot Hub Mini

Ref: 850046603358

Smart Remote Control Hub + 3x SwitchBot Temperature and Humidity sensor
Looking for devices that will turn your home into a Smart Home? he Smart Hub with Temperature and Humidity Sensors from SwitchBot will help you with this task! This equipment will allow accurate measurements, as well as convenient control through a dedicated app. From today you will be able to monitor conditions in any room and outbuilding! What's more, the smart thermo-hygometer exhibits IP65 protection, so you can use it equally outside and inside without any obstacles.

Resistant to various conditions
The SwitchBot sensor will be very comfortable to use, as it is resistant to various conditions. It exhibits an IP65 rating, which means it is dust and waterproof, so you can safely use it equally outdoors and indoors. It will prove ideal for kitchens, bathrooms, but also greenhouses and more! What's more, its battery will last up to 2 years, so you can enjoy its long and reliable operation!

Accurate measurements
The intelligent control panel, combined with temperature and humidity sensors, guarantees highly accurate measurements. The waterproof sensors, which can be located outdoors, take temperature measurements in the range of 0-65°C with a tolerance of ±0.2°C, and humidity measurements in the range of 10-90% with a tolerance of ±1.8% RH. What's more, you'll be able to quickly read their actual measurements, thanks to a 4-second refresh rate. So you can easily control everything!

Voice control

You don't have to worry about complicated controls. The Hub Mini, included in the kit, will allow you to control by voice. It works with Amazon Alexa, Google Home, Siri Shortcuts, SmartThings or IFTTT. This will let you know what the humidity is in the bathroom or the temperature in the kitchen with just one command.

Dedicated app

Want easy access to the data you read? All you have to do is download the dedicated SwitchBot app to your smartphone, which is available equally on Google Play and App Store. With its help, you can set the parameters you want in a given place, and when they are exceeded, the app will immediately send you a notification. This will allow you to react quickly. From today you will have everything under control!

Easy data reading

Forget about difficult graphs and long data analysis. With SwitchBot you can easily read your measurement data. They are shown in the form of colorful graphs so you won't have any doubts! What's more, you can see them on a yearly, monthly, daily or hourly basis.

Convenient data storage

You can store measurement data conveniently in two ways. Locally, using a Bluetooth connection, your data will be stored for 68 days. You can also choose to save in the cloud - you can store measurements there for up to 2 years! What's more, you can such export them as a csv file to analyze the environment even more deeply. From now on, you will always have all the information you need at your fingertips!

Included
Intelligent control panel
3 x temperature and humidity sensor
Hub Mini
Producer
SwitchBot
Model
HubMini+OutdoorMeter
Sensors

Temperature range
-20 ℃ to 60 ℃1.
With pre-installed zinc-manganese batteries: -20 ℃ to 60 ℃2.
When replaced with lithium batteries: -40 ℃ to 60 ℃
Storage conditions
Temperature: -40 ℃ to 60 ℃; Time: ≤ 6 months
Temperature accuracy
-20 to 0 ℃(±0.4°C, ±0.6°C /maximum);
0 to 65 ℃ /32 to 149 ℉ (±0.2°C, ±0.4°C maximum);
65 to 80 ℃ /149 to 176 ℉ (±0.4°C, ±0.6°C maximum)
Humidity range
0 to 100% relative humidity
Humidity accuracy
0 to 10% RH (±3% typical, ±5% maximum);
10% to 90% relative humidity (±1.8% typical, ±3.5% maximum);
90% to 99% relative humidity (±3% typical, ±5% maximum) (at 25°C ambient relative humidity)

Battery detection
Supports battery detection and low battery notifications
Data refresh interval
4s
Local data storage
68 days
Data storage in the cloud
At least 2 years
Numbers supported by Hub
120 units.
Power source
AAA*2
Weather resistance
IP65
Connectivity
Bluetooth 4.2
Connection distance
120m in open space
HUB mini

Material
ABS
Compatibility
Android 4.3+, iOS 10.0+, watchOS 1.0+
Operating environment
-10°C~60°C / 5-95% relative humidity
Power input
DC 5V ⎓ 1A
BLE
4.2 or higher
Bluetooth range
120 m/394 feet line of sight in ideal conditions without obstructions.
Bluetooth technology
Proprietary low-power BLE technology with mesh networking support
Third-party services
Alexa, Google Assistant, Siri Shorcuts, IFTTT, SmartThings
Other
Learning mode: 1. Intelligent learning2. Manual selection3. Individual (DIY)

Preço:

€ 73.50
