Soundpeats Clear earphones (white)

The Soundpeats Clear earphones not only offer great sound, but also a unique design and unparalleled wearing comfort. Equipped with dynamic 12mm drivers, they deliver richly detailed sound that will transport you into the world of your favorite music. With dual microphones and ENC technology, they allow you to make phone calls in almost any conditions. Their operating time reaches 7 hours on a single charge, and a dedicated app guarantees quick access to many interesting features.

Even better sound quality

Discover new nuances of your favorite music with Soundpeats Clear! The earphones feature 12-millimeter dynamic drivers that perfectly capture every detail of sound - from powerful, deep bass to crystal clear treble. Ready for a musical journey?

Clear conversations

Whether you're talking on the phone in a crowded store or participating in a video conference in a noisy office, Soundpeats Clear ensures that your voice is clear in any situation. Dual microphones, combined with ENC technology, eliminate any ambient sound interference, focusing solely on your voice. As a result, you can rest assured that your interlocutor will easily hear what you have to say to them!

Listen to music for up to 40 hours

Forget about limitations and enjoy music for as long as you want! The earphones provide up to 7 hours of uninterrupted use on a single charge. Want to listen to your favorite songs even longer? Take advantage of the charging case included in the set! With it you can extend the working time of the earphones up to 40 hours.

Fast pairing with your device

The earphones support the latest version of Bluetooth 5.3 technology, which guarantees stable, smooth and fast signal transmission. Pairing the earphones with the device of your choice will be no problem for you. Just connect them to your phone once, and they will automatically connect every time!

With gamers in mind

With Soundpeats Clear you are one step away from victory! In gaming mode, the earphones provide an extremely low latency of just 90 ms, which translates into perfect synchronization of sound and video. This means you'll be able to react instantly to any gaming situation. Take your gaming to the next level with Soundpeats and dominate your opponents!

Unparalleled comfort

The ergonomic design of the earphones perfectly adapts to the shape of your ear, so you can listen to your favorite songs for hours without discomfort or fatigue. What's more, the transparent design makes the earphones an interesting addition to your daily styling.
